About Us:

BDEX, started in with a mission to provide high quality food at very reasonable prices. At BDEX, we believe in honesty, integrity and quality. Over the years, we have established long term business and personal relationship with other companies and individual that share our beliefs.

At BDEX, every customer is important and receives our individual attention. We are dedicated to serve their need quickly without compromising on the quality. Our hard work and experienced team able us to provide our customers better service, high quality products and fast response time.

BDEX unique high-quality experience for those who wish to increase their Knowledge and enhance their appreciation of Indian foods.

Our Mission:

BDEX mission is to source and distribute high quality affordable Spices & other food product to our network of customers in the world's wholesale and retail produce industry, in a timely and most cost-effective manner.

Our Commitment:

Our policy is to make every effort to provide our clients with the best service and quality that can be offered, with the utmost integrity.

We would also like our produce growers and vendors to know without a doubt, that we are committed to being fair and ethical with every situation that presents itself.

Vision:

BDEX vision is to export and to import best quality products with FOOD SAFETY STANDARDS. And One of the main principles of BDEX is to mind the environment and human health with maximum care from the planting the goods until its realizing.

Quality Control:

Serving quality products to our clients is our utmost priority and owing to the same, various quality checks are conducted under the supervision of our quality control executives. Moreover, rich experience in the concerned field has also helped us in taking relevant steps to prevent the organic products from damage caused by variations in the climate of external pollutants.

Yellow Maize: (Corn)

We bring forth the finest quality Yellow Maize in the market. We assure that the Yellow Maize, which we provide, is packaged in PP bags using the most advanced technology. Being sourced from the most trusted vendors, Yellow Maize is high on protein content. Yellow Maize is a great food option to complete every meal. Indian origin maize (Corn), is of American origin, and after wheat and rice, it is the most important cereal grain in the world.

It is the most important cereal grain in the world. It provides nutrition to both humans (33.3%) and animals (66.6 %). Serves as basic raw material for the production of starch, oil and protein, alcoholic beverages, food sweeteners and more recently fuel. Special crops grown primarily for food include sweet corn and popcorn, although dent, starch or flint and flint maize are also widely used as food. Flint maize is also used as feed. Immature ordinary corn on the cob either boiled or roasted is widely consumed.

Availability of substitute products at cheaper rate may lead to weakness in demand. This situation happens especially when the main products price tends to become higher

Spices Of India

Our Spices add flavour to dishes without calories and hence, it is considered as a major part of the Indian cooking. Whether it is ground or whole, fried or roasted, dry or as paste, whole spices are generally used in Indian food recipes at the beginning or end of cooking. As we, BDEX are an established supplier, trader and exporter in the industry we procure our unadulterated Whole Spices only from the renowned spice farmers, who cultivate our range implying traditional methods.

Pure Organic /Conventional Turmeric

Scientific Name: *Curcuma longa*

The global production of turmeric is around 11 lakh tones per annum. *India dominates the world production scenario contributing 78 %* followed by China (8%), Myanmar (4%) and Nigeria and Bangladesh together contributing to 6% of the global production. This means we are almost the only major producer in world in turmeric

Health benefit: turmeric contains curcumin, the active ingredient that gives the spices its colour. It has potent anti-inflammatory properties and has been found to be helpful in fighting inflammatory bowel diseases, including crohn's disease and ulcerative colitis, rheumatoid arthritis, cystic fibrosis, cancer and Alzheimer's disease Turmeric Powder

MAJOR VARIETIES OF TURMERIC IN INDIA:

ALLEPPEY FINGER (KERALA)
ERODE AND SALEM TURMERIC (TAMIL NADU)
RAJAPORE AND SANGLI TURMERIC (MAHARASHTRA)
NIZAMABAD BULB (ANDHRA PRADESH)

We are leading exporters of Indian Turmeric Powder & Turmeric Finger (Polished and Unpolished)
